INDEPENDENT ACCOUNTANT'S REVIEW REPORT

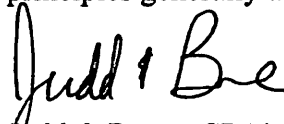

To Management
Diamond A Mutual Water Company
El Verano, California

I have reviewed the accompanying balance sheets of Diamond A Mutual Water Company (a corporation) as of December 31, 2016 and December 31, 2015, and the related statements of income and retained earnings and cash flows for the year then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of Company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I do not express such an opinion.

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

My responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require me to perform procedures to obtain limited assurance as a basis for reporting whether I am aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I believe that the results of my procedures provide a reasonable basis for my conclusion.

Based on my review, I am not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

DIAMOND A MUTUAL WATER COMPANY
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2016 AND DECEMBER 31, 2015

Note 1. History and significant accounting policies:

a. History

The Company was incorporated December 21, 1961 as a California Corporation. The Corporation supplies water to 213 residences located on land formerly known as the Anderson Ranch. As a mutual water company, for the Diamond A Subdivision, each lot was originally issued one share in the company, in the form of a water certificate. Seven Board of Directors, who are elected for two-year terms, govern the company.

The company operates four wells. The system's pumping capacity is approximately two times the average usage rate during the peak summer period. The 340,000-gallon storage capacity of the four tanks is equal to the daily average usage during the warmest summer days.

The company has installed and maintains 35 class A fire hydrants and 2 class B fire hydrants. A 50,000-gallon fire fighting reserve is maintained at all times.

b. Revenue Recognition and Allowances

The Company maintains its accounting records on the accrual method for financial reporting purposes. No allowance for doubtful accounts is considered necessary by management at December 31, 2016 and 2015.

c. Operating Property and Equipment

The operating property and equipment are stated at cost. Depreciation is computed utilizing the straight-line method and useful lives of five to twenty-five years. Additions, renewals, and betterments that significantly extend the life of the asset are capitalized. Expenditures for repairs and maintenance are charged to expense as incurred. The Company reviews long-lived assets for impairment whenever events or circumstances indicate that the carrying value of such assets may not be fully recoverable. If impairment is present, the carrying value of the impaired asset is reduced to its fair value. There were no impaired assets as of December 31, 2016 or 2015.

d. Income Taxes

The Company uses the accrual basis method of accounting for income tax purposes. No deferred taxes or credits are reflected in the financial statements. Net operating losses of \$741,450 for Federal and \$104,740 for State purposes are available as carryovers to 2017.

See Independent Accountant's Review Report

DIAMOND A MUTUAL WATER COMPANY
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2016 AND DECEMBER 31, 2015

Note 1. History and significant accounting policies (Continued):

e. Accounts and note receivable

Management reviewed the accounts receivable at December 31, 2016 and 2015 and recorded no bad debts in 2016 or 2015. If members do not pay their water bills then the Company would no longer provide water services. The Company can also place a lien on the property if they do not pay. There was no allowance for uncollectible accounts at December 31, 2016 or 2015.

Note 2. Maintenance & Improvement Paid-in Capital:

The Company charges a quarterly Capital Fee to each residence to pay for capital expenditures. Funds received from the Maintenance and Improvement billings are not reflected as Income, but are shown as Paid-In Capital. These funds are used to pay for major capital expenditures, such as new tanks or wells.

In 2014, the Company raised the Maintenance and Improvement charge to \$120 per quarter to build up cash reserves in anticipation of the need to replace three water storage tanks over the next 10 years. In 2015 this charge was increased to \$200 per quarter to fund the acceleration of the tank replacement schedule. The White Oak replacement tank was installed in October of 2015 by the Company. Zone 2 Tank is scheduled to be replaced in 2017 and will also be financed with a note from Westamerica Bank.

Note 3. Long-Term Notes Payable:

The Company took out a long-term note payable of \$200,000 to help pay for its new water storage tanks, discussed in Note 2. The note with Westamerica Bank executed on June 11, 2015 has a 4 year maturity date and a 3.5% interest rate.

A summary of the principal payments of the long-term debt for the next four years follows:

<u>Year End</u>	<u>Principal Payments</u>	<u>Long-Term Debt Ending Balance</u>
December 31, 2016	\$48,305	\$128,567
December 31, 2017	\$50,064	\$ 78,503
December 31, 2018	\$51,870	\$ 26,633
December 31, 2019	\$26,633	\$ -

The note has monthly payments of \$4,484.44 starting July 31, 2015, with a final payment of \$4,484.44 due June 30, 2019.
